Self-Government and Municipalism: 21 / 22 October, Zaragoza

Introducing the Conference on Self-Government and Municipalism in Aragón: following what started at the #MacUno1 meeting, this conference is being planned as a space of movements, of people who, bearing in mind the institutional while not reducing all of politics to it, wish to continue developing and strengthening the #municipalist challenge.

http://ama-zgz.org/

There will be four working axes : deepening democracy, rights and social unionism, inter-municipal articulation and the problem of organization. We invite you to come to Aragón or to begin preparing your trip to the next conference, which will be held in Iruña in January. See you there! We will be publishing materials!
